

Company Information

Travel Insurance Direct (TID) is one of Australia's first online travel insurance providers. We believe life's better when you take more holidays and strive to bring out the leisure traveller in all of us – whether that's road-tripping around Oz or relaxing in hotel pools in Bali. By offering our trusted expertise, insurance options and top-notch customer service, we help Aussies focus on the fun in over 100 countries. Wherever they're going, we're always here when they need us with our 24/7 worldwide emergency assistance.

Our travel insurance focuses on what is important to travellers: emergency medical support and evacuation, trip cancellations and delays, lost belongings – and most importantly, support and guidance to get them home safely.

TID is a part of nib Group, which provides health and medical insurance to over 1.5 million members. We empower our members to make better decisions and improve health outcomes through greater access to affordable health services and resources.
